## ABOUT US

We are pleased to present to you our institution **Bahr Al Ebdaah Est. for Safety & Security** and **Bahr Al Ebdaah Est. for General Cont. are** a national institution established in 2012 and works in the field of safety and security as Fire Fighting, Fire Extinguishing, Fire Alarm and Complete Low Current system as CCTV, Door Access, Biometric Devices, Data Structured Cabling, Data Centre Solution, FOC ISP and OSP, PABX Telephone, Smart Home, multi-skilled IT & Infrastructure Solution provider and also providing contracting for MEP, Electrical, Civil with a highly competent workforce and strong commitment. With years of honed expertise in Safety, Security, Low Current, IT, Infrastructure & Integrated Business Solutions, and licensed by the official authorities (Ministry of Interior - Civil Defense - Ministry of Trade) to practice security and safety activities approved by Civil Defense. Registered at Kingdom of Saudi Arabia.

We have built to a commitment of delivering 24x7 project management on the projects, backed by world class processes and capabilities that helps clients manage through rapid changes in technology

## VISION

To be a preferred Technology Integration and Managed Services Organization for its Kingdom wide Customers.

## MISSION

**Bahr Al-Ebdaah Est.** is committed to continually build a customer centric service delivery organization through the integration of people, processes and technologies, in order to continually move up the value chain while driving the costs down so as to maximize value delivered to its customers.

## VISION

- Peoples
- Accountabilities
- Honesty
- Transparency
- Total Quality Management
- Transparency
- Commitment
- Ethics

## Goals

### Strategic Goals

- 1 Expansion in Kingdom
- 2 Develop Performance & Constantly Improve Products
- 3 To Increase Customer Satisfaction
- 4 Switching to E-Commerce & Cloud Products
- 5 Produce Quality Products with low Prices

## SOLUTIONS & SERVICES

### Low Current Systems

We are providing complete Safety, Security & Low Current Systems solution including but not limited to (CCTV, Access Control System, Fire Alarm System, Nurse Call, MATV & IP TV, Public Address System, Data and Telephony Systems.)

### CCTV Cameras

We are providing complete solutions for supply and installation of CCTV products including hybrid DVRs, NVRs, standalone DVRs, Digital video servers, Compression cards, high-definition IP cameras, Analog Cameras, ANPR Cameras, PTZ Cameras, Security monitors, Multiplexing DVRs, Network Cameras, High Resolution Cameras, Water-proof IR Cameras, Outdoor Cameras and speed domes.

# ACCESS CONTROL

## ACCESS CONTROL AND TIME ATTENDANCE SYSTEM

Access control system is one of the most common used systems in electronic door control using a various means of identification (such as contactless cards, wristbands, key tags, etc.), which can be accessed by swiping through a reader on the door.

Time Attendance system is an important key for operational and HR process requirement in any business organization.

## INTERCOM SYSTEM

An electronic door strike can be installed, allowing a wooden door to be automatically unlocked, a magnetic lock can be used for frame-less glass doors, and gate / garage motors can be used to automatically open sliding gates, and garage doors.

## TELEPHONE SYSTEM

Access control system is one of the most common used systems in electronic door control using a various means of identification (such as contactless cards, wristbands, key tags, etc.), which can be accessed by swiping through a reader on the door.

Time Attendance system is an important key for operational and HR process requirement in any business organization.

## IPTV AND SMATV

SATELLITE MASTER ANTENNA TELEVISION (SMATV) We are doing projects for SMATV and IPTV. SMATV can provide audio video distribution in hotels, resorts, hospitals, schools and more.

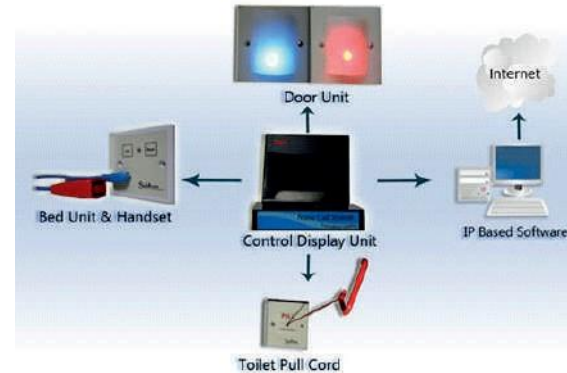

## PUBLIC ADDRESS SYSTEM

We are providing public address system (PA system) which is an electronic sound amplification and distribution system with a microphone, amplifier and loud speakers, which can be used to allow a person to address a large public, for example for announcements of movements at large and noisy air and rail terminals.

## NURSE CALL SYSTEM SOLUTIONS (NCS)

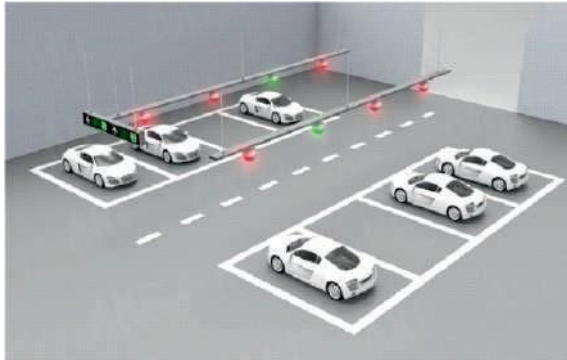

A nurse call button is a button found around a hospital bed that allows patients in health care settings to alert a nurse or other health care staff member remotely of their need for help.

## PARKING MANAGEMENT SYSTEM (PMS) SOLUTIONS

The **smart sensors** are used to show the availability of available **parking spaces** as well as traffic signs that facilitate the movement of cars when they **enter** and **exit**.

Supply and Installation of Gate barriers, parking barriers.

## PARKING BARRIER AND FLAP BARRIER

These are the ideal solution for selecting access points in residential and industrial areas even when traffic volumes are high. Gate Barriers does not need prior fitting and is easily installed in any context.

## DATA CENTER AND POWER SOLUTION

A data center is a facility used to centralize an organization's shared IT operations and equipment.

This allows for data and applications to be stored, processed, and disseminated more efficiently.

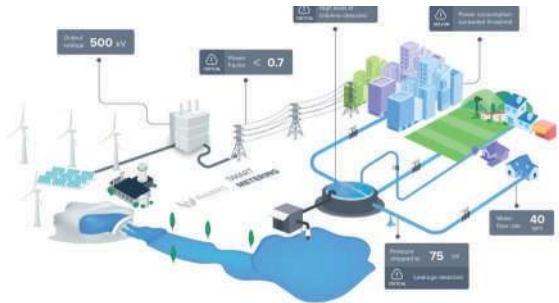

We are providing services as move datacenter, Networking Connectivity, Fire Suppression, Cooling system, Raised Floor, UPS supply and installation.

## NETWORK, DATA AND FIBER CABLING SERVICES

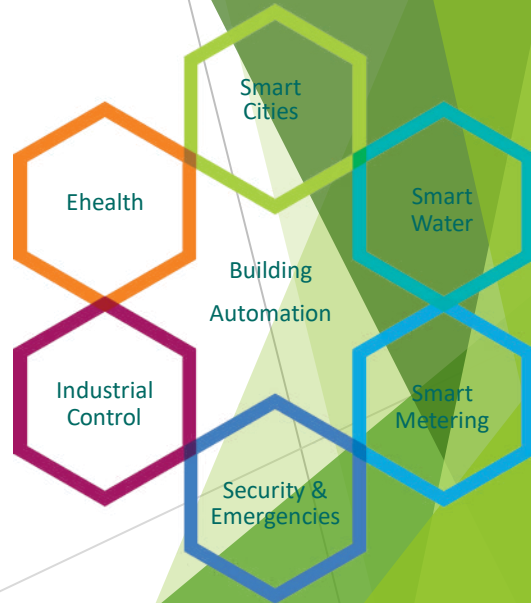

We are providing complete solution for Network, Data and Fiber cabling services as supply, pulling, termination, labeling, arranging and FOC splicing, LSPM, OTDR Testing.

## INTERNET OF THINGS (IOT)

- 01 Engineering & Design
- 02 Smart Home/Offices
- 03 Parking Management System
- 04 Commercial Sector Solution and Services

## RESIDENTIAL SOLUTIONS AND SERVICES

Smart Control

Home Theaters

Audio Systems

Video Systems

Lighting Solutions

Security Systems

Video Monitoring

Curtains and Shades

Video  
Intercoms

Air Conditioning  
Control

## SAFETY SYSTEMS

Our company committed to develop long term business relationship with our clients, with objected of delivering value-added world-class security. Your safety is our absolute priority and we exist purely to provide this superlative level of believe that it is important within the global community

**Mohammed Nasir Al Subaie Est.** in the KSA since 2017 fully equipped and organized with expert personnel to design, install test and commission of fire protection security system and safety supplies.

## WATER BASE SPRINKLER SYSTEM

Sprinkler are the most widely used for fire protection system in the world. A sprinkler system consists of an array of automatic sprinklers connected to water supply through a network of pipes. Fire hose cabinet also connected to the water line.

## CO<sub>2</sub> FIRE SUPPRESSION SYSTEM

- CO<sub>2</sub> is a colorless, odorless, electrically non-conductive gas that is highly efficient as a fire suppression agent.

## FM200 FIRE SUPPRESSION SYSTEM

Fm200 fire suppression system is a waterless fire protection solution that discharges into the risk within 10 seconds and suppresses the fire immediately. The FM200 is a chemical fire suppression gas and extinguishes fires by removing the free radicals or heat elements from the fire triangle – Oxygen, Heat and Fuel

## FOAM SUPPRESSION SYSTEM

Foam suppression systems are an effective option for protecting flammable and combustible liquids.

## NOVEC1230 FIRE SUPPRESSION SYSTEM

Novec1230 Fire Suppression Systems is a clean agent fire extinguishing agent that was developed as a halon replacement and hydrofluorocarbon (HFC) alternative. Novec fire suppression system contains Novec1230 fluid has the highest margin of safety for human occupancy among clean agents, including inert gas.

## FIRE ALARM SYSTEM

Fire detection systems are designed to discover fires early in their development when time will still be available for the safe evacuation of occupants. Early detection also plays a significant role in protecting the safety of emergency response personnel. We have installed in many projects addressable fire alarm system and conventional fire alarm system. A fire alarm system has a number of devices working together to detect and warn people through visual and audio appliances when smoke, fire, carbon monoxide or other emergencies are present.

## Fire Pump

We are supplying and installing fire fighting pump in Saudi Arabia. We offers fully efficient cost-effective NFPA-20 designed, UL listed/ FM approved fire pumps for commercial and industrial use for a new building small space, retrofit or foam/water mist application.

## FIRE EXTINGUISHER

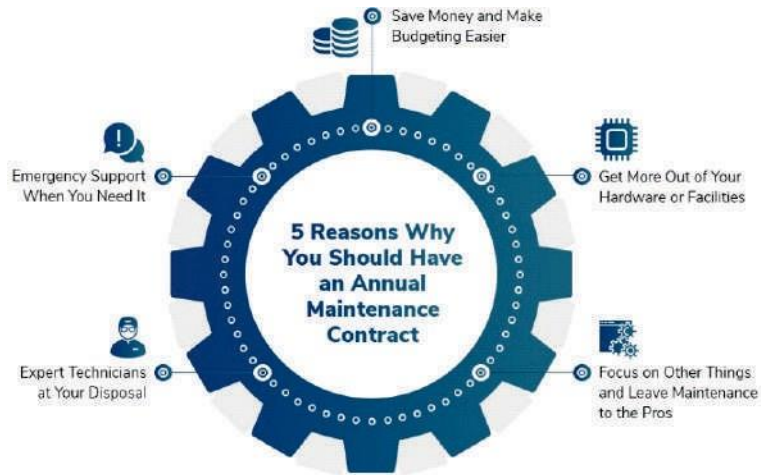

Fire suppression systems are your first line of defense when there is a blaze. Fire extinguishers are, therefore, a necessity—not a choice. We have sales, refilling and maintenance facility of Portable and wheeled extinguishers (Dry chemical / CO2 / Foam / Water) in different size.

## FIRE DOORS

We Supply & install UL-LISTED Fire doors Specially designed for spaces with a high level of transit, such as shopping centers, public buildings, industries, etc.

## ANNUAL MAINTENANCE CONTRACTS (AMC)

BAHR AL- EBDAAH Est. is committed to providing the highest level of inspection and preventive maintenance for fire protection, fire suppression, fire alarm systems and Surveillance system. Our certified technicians take pride in ensuring your products and systems are maintained according to manufacturers' standards and guidelines as well as the international codes having a reference.

We are pleased to inform you that due to our institution's success, desire in responding to our client's order and convenience, We are looking forward to serving you.

We wish to continue to work with you and will do our best for your sake.

## CONTRACTING

BAHR AL- EBDAAH Contracting Est. was founded in 2012 as a Contracting Est; we were recognized over several years being hard work, dedicated, specialized in General Contracting and Electro-Mechanical services, covering the scope of design, supply, installation, testing & commissioning.

### Exterior Works

Foundation works

Blocks Works

Slab Works

Painting

Cladding

Roof Systems

### Interiors Works

Plumbing

Gypsum Board

Cement Board

Plastering

Painting/Tiling

Finishing

False Ceiling and Flooring works of any kind

### Foundation

Excavation

Blinding Concreting

Rebar Binding

Base casting

Tower Pedestal Casting

Backfilling

### Shelter & Fence

Shelter Installation

Fence Installation

Site Electrical & Grounding Works

BAHR AL –EBDAAH Contracting Est. provides services in different wide range of projects that include:

1 General Contracting & Civil construction

2 Renovation & refurbishment of commercial buildings and industrial facilities.

3 Concrete repair and waterproofing.

4 Builders pre-engineered and steel buildings.

5 Electromechanical services including:

6 Heating Ventilation & air conditioning

7 Electrical Switchgear Panels (M.V and L.V) MDBs, SMDB and DBs.

8 Low current systems

9 Indoor and Outdoor lightings

10 Electrical Cable Pulling and termination

11 LV/MV electrical works

12 Plumbing

13 Cable tray management system (GI, SS and FRVE)

14 Telecommunications

15 Electrical Main & Distribution Panels.

16 External Work and Cables Work.

17 Ducting Work.

18 Computer site preparation

19 Smart Home

20 Infrastructure & Net woks

21 Architectural finishing works.

## ENGINEERING AND DESIGN

Engineering Solutions to Satisfy Client Expectations

Nasir al Subaie engineers are committed to developing engineering solutions to meet our clients' most complex requirements. Engineering disciplines include: civil, electrical, mechanical, piping and structural engineering; as well as advanced specialties such as simulation, enterprise integration, integrated automation processes. Many of our engineers are technical experts in their fields, presenting at conferences around the world.

Nasir Al Subaie collaborates with their client counterparts to develop integrated solutions that may include engineering, construction, maintenance and project management. From the earliest stages of project design, we involve the construction and commissioning teams to provide capital and schedule efficiencies

## E & D SERVICES INCLUDES

- Design Reviews
- Design Proficiencies
- Preconstruction Services
- Engineering Abilities
- Construction-Driven Execution

## MAJOR CLIENT
